Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field. Biology recognizes the cell as the basic unit of life, genes as ...

1. Which information is too much in flux to identify on an organizational chart? A) Grapevine lines of communication B) Line and staff authority C) Span of control D) Scalar chains
Ans: A
Feedback: The grapevine lines of communication cannot be placed on an organizational chart because they are constantly in flux. The remaining information is stable and so identified on the chart.
