The 1850s were a time of political upheaval in the United States, which led, ultimately, to the breakout of the American Civil War in 1861. They were also a period of rapid industrialization, or the transition from a local, "cottage" economy of artisanal production, to large-scale production of goods in urban centers, like New York, Philadelphia, Boston, and Baltimore.

The Industrial Revolution was the transition to new manufacturing processes in Europe and the US, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power and water power, the development of machine tools and the rise of ...
