The C in C-ECHO and C-STORE commands stands for Composite. If you remember, in chapter 4 when discussing the DICOM Data Model, we said that DICOM applications exchange composite objects (the DICOM images that we already know) that are composites of modules from different IE's where IE's are the information entities of the Normalized DICOM data model.

DICOM is Easy: Introduction to DICOM - Chapter 5 - Solving ...

You can combine these building blocks to implement more intricate decisions, too. For example, here are the programming instructions, called the source code, for a simple program written in the Python programming language. Starting at the top, the Python software runs each line of code (some lines are run only if a certain condition is true or else Python runs some other line) until it reaches ...
