The domination of food concepts in franchising is over, bowing to a plethora of fitness concepts appealing to new and expanding segments of the population.

Food To Fitness...Franchising Is On The Move - forbes.com

Health, as defined by the World Health Organization (WHO), is "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity." This definition has been subject to controversy, as it may have limited value for implementation. Health may be defined as the ability to adapt and manage physical, mental and social challenges throughout life.

Health - Wikipedia
