Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice. Nurses practice in many specialties with differing levels of prescription ...

Conclusion. If theory is expected to benefit practice, it must be developed co-operatively with people who practice nursing. People who do research and develop theories think differently about theory when they perceive the reality of practice.

Application of Theory in Nursing Process - Current Nursing

The purpose of the CNN-NP Practice Test is to allow candidates for the CNN-NP examination to practice with a test similar in content and format to the actual CNN-NP examination.
