The feasibility to improve the response of quantum type (photonic) infrared (IR) detectors by applying surface plasmons is investigated. The HgCdTe material system is used as the detector platform of interest for which selected plasmonic structures and materials are applied and the influence studied by full-fielded electromagnetic simulations.

Steven Lukes's *Power: A Radical View* was a very important contribution when it appeared in 1974. Lukes emphasized several important points that became landmarks in subsequent discussions of the social reality of power: that power is a multi-dimensional social factor, that power and democracy are paradoxically related, and that there are very important non-coercive sources of power in modern ...
