English is an Indo-European language and belongs to the West Germanic group of the Germanic languages. Old English originated from a Germanic tribal and linguistic continuum along the Frisian North Sea coast, whose languages gradually evolved into the Anglic languages in the British Isles, and into the Frisian languages and Low German/Low Saxon on the continent.

Linguistic classification. Romansh is a Romance language descending from Vulgar Latin, the spoken language of the Roman Empire. Within the Romance languages, Romansh stands out because of its peripheral location, [clarification needed] which has resulted in several archaic features. Another distinguishing feature is the centuries-long language contact with German, which is most noticeable in ...

Unix assembly language programming. 2.1. Default Calling Convention. By default, the FreeBSD kernel uses the C calling convention. Further, although the kernel is accessed using int 80h, it is assumed the program will call a function that issues int 80h, rather than issuing int 80h directly.. This convention is very convenient, and quite superior to the Microsoft convention used by MS DOS.
