The vast majority of bread is traditionally produced from wheat flour. Apart from its major constituent starch, wheat flour also contains many other types of substances of which the gluten, the non-starch polysaccharides as well as the lipids are the most important in terms of their impact on the processability of the raw material and in terms of the quality of the final products.

Wheat flour constituents: how they impact bread quality ...

Introduction. Hypertension is the most important preventable cause of premature death in developed countries, 1 and the benefits of antihypertensive drugs for prevention of cardiovascular mortality and morbidity are well established. 2 Although the findings of an early meta-analysis 3 of the results of 17 hypertension trials—all of which used standard diuretic or β blocker therapy, or both ...

This is a list of composers by name, alphabetically sorted by surname, then by other names. The list of composers is by no means complete. It is not limited by classifications such as genre or time period; however, it includes only music composers of significant fame, notability or importance who also have current Wikipedia articles. For lists of music composers by other classifications, see ...
