Saphenous nerve. The saphenous nerve is a sensory branch of the femoral nerve, and supplies sensation to the anteromedial, medial and posteromedial surface of the leg. The nerve passes through the adductor canal, and gives off an infrapatellar branch. It continues to become subcutaneous to supply prepatellar skin and also supplies the medial side of the ankle and foot.

So let's lose the drama, learn some anatomy, and get the facts right by authoring a cover letter that exceeds any editor's great expectations.

Anatomy of a Killer Cover Letter - Squawkfox

Grey's Anatomy is an American medical drama television series that premiered on March 27, 2005, on the American Broadcasting Company (ABC) as a mid-season replacement. The fictional series focuses on the lives of surgical interns, residents, and attending physicians, as they develop into seasoned doctors while trying to maintain personal lives and relationships.
