Hi all, I have a question relating to the topic above that i hope you guys can help me with;. 1) Is it possible to remove digital signatures from form? For instance if you have a form going thru several approval steps that requires signatures, and then one step happened to reject, it would be nice to remove the previous signatures so that they could be re-signed.

Wayland is a computer protocol that specifies the communication between a display server and its clients, as well as a reference implementation of the protocol in the C programming language. A display server using the Wayland protocol is called a Wayland compositor. Wayland is developed by a group of volunteers initially led by Kristian Høgsberg as a free and open community-driven project
