A thesis or dissertation is a document submitted in support of candidature for an academic degree or professional qualification presenting the author's research and findings. In some contexts, the word "thesis" or a cognate is used for part of a bachelor's or master's course, while "dissertation" is normally applied to a doctorate, while in other contexts, the reverse is true.

Introduction This guide provides some basic models and examples of citations based primarily on the IEEE Editorial Style Manual, which is generally used within engineering and computer science disciplines. Although this guide does not cover every citation situation, it does suggest some examples that are not addressed by the manual.

Immigration. Immigration: Liberty and Justice for All There are many social problems making up our criminal justice system. The significant problem I chose to emphasize on is illegal immigration. Immigration is a major social problem in the criminal justice system because the laws or regulations are always changing, and some people are just not willing to accept change.

2.2.2 Standard Makefile Targets. So far we have come across four ways to run make in the GNU Build System: make, make check, make install, and make installcheck. The words check, install, and installcheck, passed as arguments to make, are called targets. make is a shorthand for make all, all being the default target in the GNU Build System.. Here is a list of the most useful targets that the GNU ...

Origins and use. According to an 1896 paper, the origin of the author-date style is attributed to a paper by Edward Laurens Mark, Hersey professor of anatomy and director of the zoological laboratory at Harvard University, who may have copied it from the cataloguing system used then and now by the library of Harvard's Museum of Comparative Zoology.
