JOHN NAISH: In the British journal Nature, astronomers revealed how their super-powerful new radio telescope detected millisecond-long pulses of radio waves originating from outside our galaxy.

Is ET trying to phone us... and if he is, shall we call ...

A fire alarm system has a number of devices working together to detect and warn people through visual and audio appliances when smoke, fire, carbon monoxide or other emergencies are present. These alarms may be activated automatically from smoke detectors, and heat detectors or may also be activated via manual fire alarm activation devices such as manual call points or pull stations.

Fire alarm system - Wikipedia

Apple was told to pay over \$31 million, and did not say if it would appeal.

As of August 29, 2014, Google has decided to intentionally break old browsers. They say it's not a bug, it's by design here, even though Google's support page says it accepts Safari 4 as a fully supported browser. If you want Google searches to go back to the modern style, you need to change your User-Agent string.
