The Mosin Nagant is a solid rifle, though, and surplus 7.62x54R ammo is still readily available for about \$0.25 a round. Even modern production ammo — perfectly suited for hunting, target shooting, or defensive purposes — is widely available and almost always at a lower cost than ballistically comparable rounds like .308.

Project Build: The Ultimate Mosin Nagant - The Truth About ...

We are delighted to announce that the first components for the cylinder block for No. 2007 Prince of Wales have been delivered. The three cylinder cover castings which were made from Spheroidal Graphite Iron were produced by H. Downs & Sons foundry in Huddersfield from a pattern produced by John Hazlehurst of Swineshead near Boston.

On 31 December 2018, our XP-82 Twin Mustang flew for the first time since 14 December 1949. Although it wasn't supposed to fly yesterday, all that was planned to do was the last FAA required runway high-speed taxi test, lift off for a second or two and then back down, deploy full flaps and brake to a stop.

A common method of threading is cutting with taps and dies. Unlike drill bits, hand taps do not automatically remove the chips they create. A hand tap cannot cut its threads in a single rotation because it creates long chips which quickly jam the tap (an effect known as "crowding" [citation needed]), possibly breaking it. Therefore, in manual thread cutting, normal wrench usage is to cut the ...
