How to Prepare a Manuscript for International Journals — Part 3. In this series, Dr. Angel Borja draws on his extensive background as an author, reviewer and editor to give advice on preparing the manuscript (author's view), the evaluation process (reviewer's view) and what there is to hate or love in a paper (editor's view). This article is the third in the series.

What better way to explore science than with a DIY catapult? The catapult is a great way to talk about trajectory and projectiles with kids.

Catapult Science for Kids - FSPDT

Life is a characteristic that distinguishes physical entities that have biological processes, such as

signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.
