A blue plaque is a permanent sign installed in a public place in the United Kingdom and elsewhere to commemorate a link between that location and a famous person, event, or former building on the site, serving as a historical marker. The term is used in the United Kingdom in two different senses. It may be used narrowly and specifically to refer to the "official" scheme administered by English ...

Blue plaque - Wikipedia

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

The Cover Feature shows a scheme of an acoustics aptasensor for detecting leukemia cells based on thiolated DNA aptamers immobilized at a thin gold electrode of a quartz crystal transducer. The aptamers recognize PTK7 cancer markers at the cell surface. Binding of the cells resulted in decrease of the resonant frequency of the aptasensor.
