In a nutshell, the South African schooling system shows the following characteristics: the national mean mathematics scores are low and need to improve. There is a high differentiation of the educational performance of students from different socio-economic conditions and we can say that we have two systems of education. This means that an estimated 30 percent of schools perform reasonably ...

The SAT is typically taken by high school juniors and seniors. The College Board states that the SAT measures literacy, numeracy and writing skills that are needed for academic success in college. They state that the SAT assesses how well the test takers analyze and solve problems—skills they learned in school that they will need in college [citation needed].

SAT - Wikipedia

The incremental learning derives its name from the incremental nature of the learning process. In incremental learning, all facets of knowledge receive a regular treatment, and there is a regular inflow of new knowledge that builds upon the past knowledge.
