The vivid prose and easy navigation of the first edition led to strong demand for a second. Although this edition has been faulted for its imperfect scholarship, Smellie argued that the Britannica should be given the benefit of the doubt: . With regard to errors in general, whether falling under the denomination of mental, typographical or accidental, we are conscious of being able to point ...

Education can be thought of as the transmission of the values and accumulated knowledge of a society. In this sense, it is equivalent to what social scientists term socialization or enculturation. Children—whether conceived among New Guinea tribespeople, the Renaissance Florentines, or the middle classes of Manhattan—are born without culture. ...

This past week, we featured a free course on the programming language Python, presented by MIT. A handy resource, to be sure. And then it struck us that you might want to complement that course with some of the 36 free ebooks on computer programming from O'Reilly Media--of which 7 are dedicated to Python itself. Other books focus on Java, C++, Swift, Software Architecture, and more.
