The Rasch model, named after Georg Rasch, is a family of psychometric models for creating measurements from categorical data, such as answers to questions on a reading assessment or questionnaire responses, as a function of the trade-off between (a) the respondent's abilities, attitudes, or personality traits and (b) the item difficulty. For example, they may be used to estimate a student's ...

Etymology. The most common theory of the origin of the name Brussels is that it derives from the Old Dutch Bruocsella, Broekzele or Broeksel, meaning "marsh" (bruoc / broek) and "home" (sella / zele / sel) or "home in the marsh". Saint Vindicianus, the bishop of Cambrai, made the first recorded reference to the place Brosella in 695, when it was still a hamlet.
